Jim Norman (UK)

Matthieu Piel (France)

Miguel del Pozo (Spain)

Erik Sahai (Great Britain)

David Sherwood (USA)

Xavier Trepat (Spain)

## Sessions

Introducing heterogeneity and complexity: 1D-2D-3D-in vivo invasion models

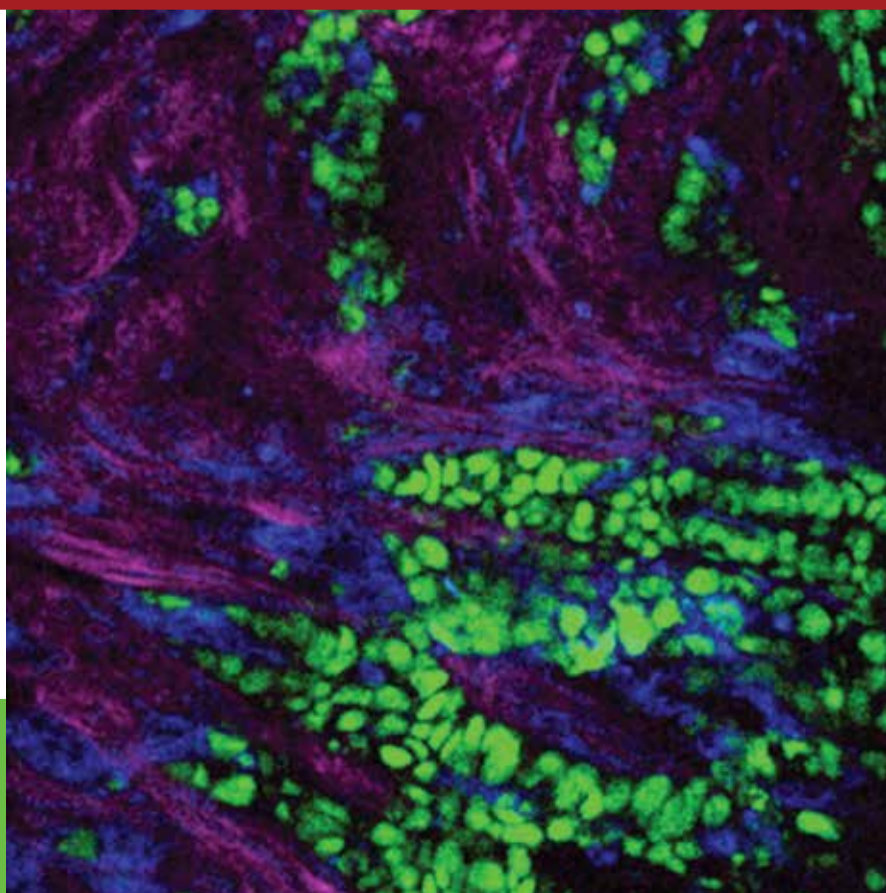

Mechanical signaling in cell migration and invasion

Invasion in development and inflammation

Intracellular signals for invasion: Molecular and structural organization of invadosomes

Extracellular signals for invasion: Cancer and the microenvironment role

Fabrication and modeling microenvironments of invasion

## Organizers

Danijela Matic-Vignjevic (France)

Bojana Gligorijevic (USA)

Corinne Albiges-Rizo (France)

Helene Barelli (France)

Daniel Louvard (France)
